

Photography, Video and Permissions and Local Visits Consent Form

As a Federation we sometimes take photographs of pupils. We use these photos to support learning, and to celebrate events for example in the Federation newsletter or our on the website. All images and videos taken will be held in line with the Federation’s retention schedule.

How do we use photographs or videos taken of you?

Group and individual photographs are used for internal display, teaching resources, Federation documents and parent handbooks. Your child’s first name and year group will be used, where required, for these photographs. **We do not use surnames.**

Photographs of either individuals or group, which are going to be used in the newsletter or online, again will only have a first name applied to it, as required.

For any photographs that will be used in publications e.g. the Federation prospectus or for use in the media will have a separate consent form stating the exact use of the photograph.

Photographs by parents and other family members are allowed during school events such as performances and plays, however we request that you do not post any images on social media that include other children. Please note that disruptive behavior or inappropriate use/sharing of images captured on Federation property or using Federation images may result in a limitation of photographs/video being allowed at events.

Please tick all items that you give your consent for:
