Draw a mountain range that includes all the features listed below. Next, label the features on your drawing.

summit	foot
outcrop	valley
ridge	slope
snow line	tree line
plateau	face

Mountain Features

Can you work out the feature being described?
Draw a mountain range that includes all the features listed below and label each feature.

----- The top of a mountain.	----- / ----- Above here snow and ice cover the mountain all year.
----- / ----- The highest point forests are found.	----- The bottom of the mountain.
----- A rock formation visible from the surface.	----- The area of low land between mountains.
----- An area of flat, high ground.	----- A long, narrow, high section of land.
----- The side of a mountain.	----- An area of ground increasing in height.
